Homework 5 Report

## Concurrent programming, ID1217

Group members
[Sai Santhoshi Srinithya , darbha@kth.se]

Task 6: Exchanging Values

Estimation and comparison of performance of the 3 algorithms to exchange values

Centralized algorithm graphs

Execution Time vs. Number of Processes (Centralized Structure)

Ring algorithm graphs

Execution Time vs. Number of Processes (Ring Algorithm)

Symmetric algorithm graphs

Execution Time vs. Number of Processes (Symmetric Structure)
